¹⁴ June Reinisch left as Director of The Kinsey Institute for Research in Sex, Gender, and Reproduction, Bloomington, Indiana in 1993. Stephanie Sanders, who was Associate Director at the time, became Interim Director until 1995. The changes in leadership may account for the possibility of no funding found in 1994.

¹⁵ Adams, *supra* note 1, at 23. The \$289,717 is listed on NIH RePORTER in 1995 to Indiana University, Bloomington with the PI listed is James Stanford Skinner and no documentation linking him to Kinsey Institute. The project title: Heritage-Study, Genetics, Exercise, and Risk Factors. There are no details on the study, but history shows this same project was funded by NHLBI from 1992 to 2003 through either Indiana University, Bloomington or Arizona State University-Tempe Campus depending on the year. If this happens to have connection with Kinsey Institute, this project appears almost every year starting with 1992 to 2003, twice in 1995, no funding in 2000, and with amounts totaling \$160,076 for years 2001-2003 only. No amounts are listed for years 1992-1999. *See*, http://projectreporter.nih.gov/project_info_history.cfm?aid=2223570&icde=0 (Last visited 7-11-12).

²⁷ Erik Janssen, Senior Scientist & Director of Education & Research Training for The Kinsey Institute for Research in Sex, Gender, and Reproduction. He is the Principal Investigator for a majority of these government-funded projects. See, <http://www.kinseyinstitute.org/about/janssen.html> (Last visited 7-16-12).

²⁸ Intercampus Research grant from Indiana University. The Kinsey Institute of Sex Research in Sex, Gender, and Reproduction website at <http://www.kinseyinstitute.org/about/awards.html#RAG> and <http://www.kinseyinstitute.org/resources/grants.html> (Last visited 7-12-12).

²⁹ Cynthia Graham is a Research Fellow at Kinsey Institute from 2004 to the present (2011), Director of Graduate Education for Kinsey Institute and Co-chair Interdepartmental Graduate Committee on Human Sexuality for Indiana University from 1999-2004 and Professor of Clinical Psychology Department of Psychiatry at IU from 1996-2004. Graham's CV, dated Oct. 2011 is available at <http://www.kinseyinstitute.org/research/affiliated.html> (Graham CV Oct2011-2). (Last visited 7-13-12).

³⁰ Bancroft, *supra* note 26.

³¹ R. Zimmerman is affiliated with the Dept. of Behavioral Science with University of Kentucky Medical Center, Lexington, KY. Janssen's name is on the project grant as a consultant, amount actually given to Kinsey Institute is unknown. Janssen's CV can be found at www.kinseyinstitute.org/about/cvfiles/CV_Janssen_KI_11.pdf (Last visited 7-11-12).

³² Janssen, *supra* note 27.

				Retrieved 7-11-12	funded in 2000 for 3 years.
--	--	--	--	-------------------	-----------------------------

YEAR	AMOUNT	AGENCY	PROJECT	CITATION	COMMENT
2001-2003	(100,000) ³³ (147,000) ³⁴	NIH NICHD	Is Female Sexual Arousal Target Specific.	www.kinseyinstitute.org/about/cvfiles/CV_Janssen_KI_11.pdf Retrieved 7-11-12 June 2001-May 2003 http://faculty.wcas.northwestern.edu/~Michael-Bailey/The%20Washington%20Times.htm (Last visited 7-20-12). Pd. Women up to \$75 to watch porn films to measure their sexual response—same year NICHD chose not to fund study on relationship of kids and regressive autism and MMR vaccines	Research Grant; (PI) M. Bailey, ³⁵ Janssen ³⁶ consulted Amount unknown

³³ This amount is listed on Janssen’s 2011 CV and is conflicting with a Washington Times news article. See, www.kinseyinstitute.org/about/cvfiles/CV_Janssen_KI_11.pdf and *infra* note 34. However, it is unknown as to any amount paid to Kinsey Institute in partnering on this project.

³⁴ This amount, \$147,000 is listed in a Washington Times article describing the project as a 3 yr. funding that paid women up to \$75 to watch porn and have their sexual responses measured. Women were lesbian, bisexual, and heterosexuals being monitored to their various sexual responses to lesbian, bisexual, and heterosexual behavior in explicit porn films. The irony, is the same year NIH could not find funding a study of the relationship between children and regressive autism and the MMR vaccine. Note that it was the NICDH that funded this project.

³⁵ Michael Bailey, Dept. of Psychology at Northwestern University. Janssen consulted and amount is unknown if some or any was given to The Kinsey Institute for Research in Sex, Gender, and Reproduction. See, www.kinseyinstitute.org/about/cvfiles/CV_Janssen_KI_11.pdf (Last visited 7-11-12).

³⁶ Janssen, *supra* note 27.

⁶⁹ National Institute Of Diabetes and Digestive and Kidney Diseases (NIDDK).

⁷⁰ Wendelin (Ben) L. Sachtler is the President and CEO of Corpora Systems Inc., and has worked with Erick Janssen, Julia Heiman, Wendy Kinsey Corning, on a project to develop a new instrument that can monitor several parameters in female genitalia simultaneously. The new device facilitates clitoral and vaginal stimulation and measurements that are less intrusive during more advanced stages of arousal. The project has already moved through Phase 1, which involved testing a fully functioning prototype. Users likened fitting the vaginal probe to inserting a menstrual tampon, which suggests it will be easy for subjects to use. In Phase 2, the system will be refined and tested more extensively, in a larger group of women. The result would be an instrument that could be used in both basic and clinical research, with potential for direct application in clinical practice as well. The study is funded through the National Institute of Diabetes and Digestive and Kidney Diseases, NIDDK, a division of NIH. See, <http://www.kinseyinstitute.org/newsletter/sp2009/research.html> (Last visited 7-18-12).
